

## Growing in Preschool

### Full Day

In full day preschool at Mulberry School our focus is on the growth and development of the whole child. We concentrate on the four areas of growth and development: language, social/emotional, physical and cognitive. Individualized growth and development is essential to success.

Mulberry Preschool children will achieve developmentally appropriate goals by experiencing hands-on, child-centered activities in small and large group settings. Our curriculum aligns with the Illinois State Board of Education Early Learning and Development Standards. Children will have an opportunity to experience a variety of specials such as music, art, drama, cooking and Spanish depending on parent participation.

Preschool teachers create a learning environment that fits the needs of the individual child as well as the needs of the group.
